

## **About Victoria Hospice**

Victoria Hospice provides specialized care to people living with life-limiting illness and grief. We focus on quality of life through holistic, comfort-oriented care, supporting people's physical, emotional, social, and spiritual needs. Families, chosen families, and friends are included as essential members of our circle of support.

We offer end-of-life care on the Inpatient Unit, short-term crisis consultation and treatment at home, and bereavement services online and at our Community Support Centre. We engage in education, training, and research for evidence-based clinical practices and to advance palliative care across Canada and around the world. Our interdisciplinary team includes trained volunteers who support care and comfort for patients and families, help with fundraising events, the Rooftop Garden, and office administration.

## **Vision**

Quality palliative end-of-life care for all

## **Mission**

Quality palliative and end-of-life care for all: Our mission is to enhance the quality of life for those facing life-limiting illness, death and bereavement through patient and family-centred care, education, research and advocacy.

## **Values**

Respect, Compassion, Integrity, Commitment, Collaboration, Excellence
